We are proud to announce that EVS has won the BLCC Golden Bridge Technological Innovation Award 2023

The Golden Bridge Awards are presented annually to the most successful Belgian and Luxembourg companies exporting to or trading in the UK.

EVS, a trailblazer in media and entertainment technology, has been awarded the Golden Bridge Award for Technological Innovation in 2023, underscoring a commitment to sustainability and cutting-edge technology.

EVS's commitment to sustainability extends to its technological solutions. The company has prioritised the development of IP and cloud technology-defined solutions, facilitating remote workflows and hardware virtualisation. This approach minimises power consumption and environmental impact. EVS designs hardware that optimises power consumption per video channel, emphasising the reduction of environmental impact throughout the product lifecycle. By joining the Institute for Sustainable IT, EVS gains valuable resources and advice to further its sustainability goals.

EVS has joined the Institute for Sustainable IT, a collaborative effort among organisations striving to reduce the impact of their IT equipment and products. This partnership provides EVS with valuable resources and advice, furthering the company's sustainability goals and reinforcing its commitment to technological solutions that are both innovative and eco-friendly.

The Golden Bridge Award 2023 for Technological Innovation adds another milestone to EVS's journey of blending cutting-edge technology with a steadfast commitment to sustainability.

Michel Vanhoonacker, Chairman of the Belgian-Luxembourg Chamber of Commerce in Great Britain and of the Golden Bridge Jury 2023 commented: "EVS won the Awards in 2006 as it was then top of its class. 17 years later, the company has lost nothing of its technological and competitive edge but this time it was also able to show the necessary ESG and carbon reduction credentials. It is the first time a company wins the Golden Bridge Awards for a second time and this in itself is a major achievement showing EVS has kept on growing and has been able to stay leader in its market."

The Golden Bridge Trade & Investment Awards

The Golden Bridge Trade & Investment Awards, initiated by the Belgian-Luxembourg Chamber of Commerce in Great Britain, promote sustainable export and investment to the UK while elevating the profile of BeLux products and services abroad. This prestigious event recognises the achievements of Belgian and Luxembourgish companies on the global stage.
